

Operation Smile

Changing Lives One **Smile** at a Time

*Thanh of Vietnam
before surgery*

Thanh after surgery

Cleft lip and/or cleft palate occurs in approximately 1 per 500 – 700 births. (*World Health Organization International Collaborative Research on Craniofacial Anomalies*)

Around the world, 200,000 children are born each year with a facial deformity. Today, tens of thousands remain untreated.

**IN AS LITTLE AS 45 MINUTES,
ONE CLEFT LIP SURGERY CAN CHANGE
A CHILD'S LIFE FOREVER.**

Last year Operation Smile medical volunteers around the world provided free surgeries for 10,868 children.

Operation Smile offers medical volunteers from its partner countries a wide range of educational opportunities, laying the groundwork for long-term self-sufficiency.

Thousands of students take part in 500 Operation Smile Student Clubs in elementary, middle, high schools, colleges, universities and medical schools around the world.

1982

Operation Smile volunteers began treating children who were suffering with cleft lips, cleft palates and other facial deformities.

2009

Operation Smile now has a presence in 51 countries, and Operation Smile volunteers have treated more than 130,000 children worldwide.

*A smile is felt the
world over.*

MISSION STATEMENT

Operation Smile mobilizes a world of generous hearts to heal children's smiles and transform lives across the globe.

Operation Smile received \$26.6 million in contributed services and supplies last year.

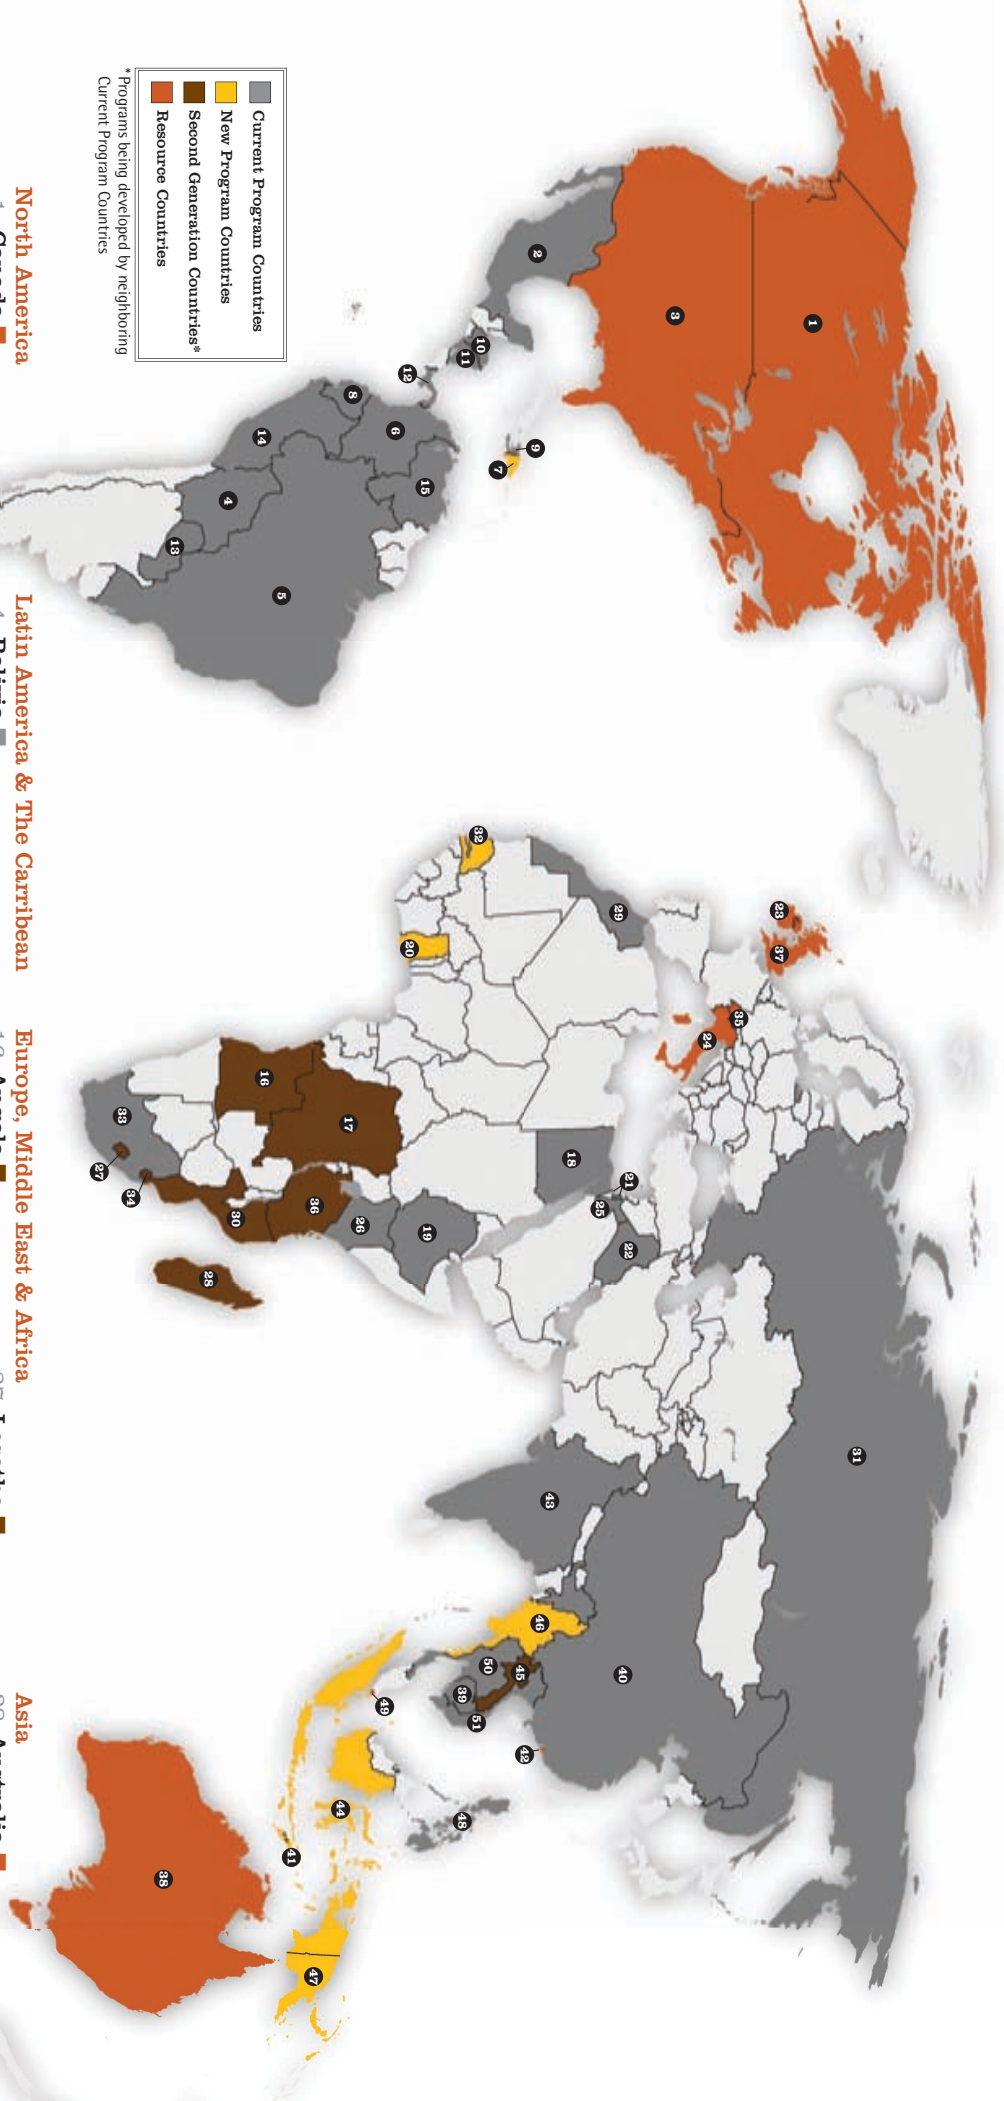

Current annual cash revenue is \$30.6 million and includes generous support from individuals, corporations, and foundations.

**OPERATION SMILE HAS BEEN A MEMBER OF THE "FORBES 200"
ANNUAL SURVEY OF THE LARGEST CHARITIES SINCE 2001.**
